Director, Russian Ilizarov Center,
Adke Hospital, Solapur.
President, ASAMI - INDIAN.

Dr. Dyna Adke

Course Co-Ordinator
Russian Ilizarov Center,
Adke Hospital, Solapur.

Dear Colleague,

Welcome to the World's 1st and most successful Ilizarov training program designed on Original Russian (Kurgan) Pattern.

It gives us great pleasure to invite you for "Ilizarov Fellowship-2026", at Solapur, Maharashtra, India. Ilizarov technique is world's most popular, most needed, time tested and highly effective with limitless applications and the most natural way to treat trauma & Orthopaedic cases but least practiced due to lack of its proper knowledge. We have made this fellowship program interesting and more informative to understand all aspects of Ilizarov technique. Even though Ilizarov is having enormous applications in its 15 sub specialities and appears difficult & complicated, we have made it easy to know it with more hands on and practical master classes. If learnt well and practiced regularly one can master it at any corner of this world. Come home to the World of Ilizarov - Solapur the International medical & cotton city.

Ilizarov is simple, different, practical & highly effective™. It is an opportunity for postgraduates, general Orthopaedic surgeons and Orthopaedic Super specialists, may be beginners or experienced one to acquaint with its vast applications and recent advances.

Learn the wonderful "Art of making bone"™ by Ilizarov at Russian Ilizarov Center, probably the only center in India and one of the very few in Asia, practicing all aspects of Ilizarov technique from hand to spine! Dr. Sandeep Adke is the course director who is a third generation Ilizarov surgeon, first fellow of Russian Ilizarov Scientific Center, Kurgan, Russia, trained by Prof. V.I. Shevtsov, the former director of "RISC", Kurgan, with vast experience in the field of Ilizarov for last 34 years and world's first Cosmetic Orthopaedic Surgeon with 3 world records who has trained more than 6000 Orthopaedic surgeons world wide. He has introduced hand, pelvis & spine Ilizarov in India for the first time in 1999.

This comprehensive one week fellowship program is organised to make you the best Ilizarov surgeon. You will be taught to deal with any difficult trauma and Orthopaedic conditions confidently with Ilizarov technique, make presentations in conferences. Every case cannot be catered well by conventional methods. Now the knowledge of Ilizarov technique is needed by every orthopaedic surgeon in daily practice to deal with many primary and emergency situations in high velocity trauma & increasing complications treated improperly earlier. Loosing such patients is a great loss of reputation and finance. Welcome to Solapur to become a extraordinary Orthopaedic surgeon in your region! After successful completion you will be awarded Fellowship Certificate and Medal.

ILIZAROV FELLOWSHIP 2026

23rd to 29th November, 2026
